

Halves and Doubles

Learning Intention: I can find halves and doubles

Halves and doubles are the opposite of each other. If we know half of 10 is 5, then we know that double 5 is 10!

$$\boxed{3} + \boxed{3} = \boxed{6}$$

half of $\boxed{6}$ is $\boxed{3}$

$$\boxed{} + \boxed{} = \boxed{}$$

half of $\boxed{}$ is $\boxed{}$

$$\boxed{} + \boxed{} = \boxed{}$$

half of $\boxed{}$ is $\boxed{}$

Draw the correct number of stars

Draw the correct number of squares

Draw the correct number of triangles

$$\boxed{} + \boxed{} = \boxed{20}$$

half of $\boxed{20}$ is $\boxed{}$

$$\boxed{9} + \boxed{} = \boxed{}$$

half of $\boxed{}$ is $\boxed{9}$

$$\boxed{} + \boxed{} = \boxed{14}$$

half of $\boxed{}$ is $\boxed{}$
