Prevention service

The children and families prevention service brings together a range of preventative work which

- Operates seamlessly throughout the 0-19 age range;
- Eliminates duplication, unnecessary and unhelpful transitions for families;
- Has a new way to provide services, including a greater capacity to provide early help in a more targeted way children, young people and families; and
- Is co-located with the new healthy child teams (5-19)

Our vision is that "families in North Yorkshire are able to access readily a range of support to ensure that their children are safe, happy and well, and that they can flourish at school and in the wider world".

Other Information	
	This is a bespoke family service for 5-19 year olds who wish to work towards a healthy weight. Each family is offered a 12 week programme which is delivered by a Healthy Lifestyle Advisor within the family home. During the programme families take part in a range of fun and interactive sessions based on key lifestyle topics, complete weekly challenges and set their own personalised goals.
